REACH STATEMENT

9/22/2023

Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) is a regulation adopted by the European Union (EU) to manage the use of chemicals within the EU. Guidelines have been established for substances within the European Economic Area (EEA) and apply to all entities that reside there.

Nanshan America – Advanced Aluminum Technologies has decided not to register and evaluate their products for REACH approval based on the following:

1. REACH only applies to entities within the EEA and Nanshan America – AAT does not maintain a presence within the aforementioned location.
2. Nanshan America – AAT does not export any substances or articles to a location within the EEA.

In the case Nanshan America – AAT decides to expand into the EEA, whether through exportation or a new facility, this policy will be revisited.

Best Regards,

Jeremy Johns

Director of Operations

Nanshan America – Advanced Aluminum Technologies, LLC
